3	NEW YORK GENERAL ENERGY DIAMITMO DOND	_	2	MS. BARTON: As the Chair of the State
	NEW YORK STATE ENERGY PLANNING BOARD		3	Energy Planning Board, I hereby call the
4	PUBLIC HEARING		4	meeting to order.
5				•
6			5	So, good afternoon, everyone. My name
7	31 Chambers Street New York, New York		6	is Alicia Barton, I'm President and CEO of
8	March 2, 2020		7	the New York State Energy Research and
9	3:02 p.m.		8	Development Authority, or NYSERDA, and here
10			9	today as Chair of the New York State Energy
11			10	Planning Board.
12	BEFORE:		11	I'm joined by Public Service
13			12	Commission Chair, John Rhodes, who is also a
14	ALICIA BARTON, President and CEO of NYSERDA		13	member of the State Energy Planning Board.
15			14	While we don't have all of our
16	Chair, New York State Energy Planning Board		15	Planning Board members here today, all of
	JOHN RHODES, Chair, Public Service Commission		16	our members are invested in the process.
17	CEO, Department of Public Service		17	And we are hosted here today by the
18	TONI FREEMAN GREENE, Court Reporter		18	Building Energy Exchange, which we very much
19			19	appreciate, and of course, as their guests,
20			20	I ask that all participants in today's
21			21	meeting respect the rules of our host here.
22	ELLEN GRAUER COURT REPORTING CO., LLC		22	This is a hearing to accept public
23	A U.S. LEGAL SUPPORT COMPANY		23	comments on the Draft Amendment to the 2015
24	126 East 56th Street, Fifth Floor New York, New York 10022		24	State Energy Plan.
25	212-750-6434 REF: 300702		25	The Draft Amendment was noticed in the

Page 5 Page 7 **PROCEEDINGS** 1 1 **PROCEEDINGS** 2 adopted synchronized with the new clean 2 and have been doing in the past, getting us energy goals established by the Climate Act to where we are. 3 3 4 and ensure they are integrated into the 4 I think our State really does -- has existing Energy Plan. taken a leadership position on a lot of the 5 5 issues that are the subject of the Energy The Amendment under consideration 6 6 7 would also adopt direction from the Public 7 Plan, as well as the associated plans, such Service Commission to consider a mechanism as the Energy Efficiency Plan for the PSC 8 8 and the various activities to reduce that would establish a stable source of 9 9 funding for the Electric Generation Facility emissions. 10 10 11 Cessation Mitigation Program, which is 11 I think it's great to see that the designed to assist communities that are CLCPA requirements are essentially being 12 12 hosting conventional power plans in their copied into the Energy Plan as they are by 13 13 transition to clean energy. these amendments, and also it is good that 14 14 All comments provided here today will we, you know, are beginning to work on the 15 15 be considered by the Energy Planning Board question of addressing the impacts of 16 16 as it evaluates whether to adopt the Draft cessation of some of the kinds of electrical 17 17 Amendment. Written comments are being 18 18 generation that we use today. accepted through March 8th. But, I'm a bit concerned that I think, 19 19 Additional details can be found on the while you guys have done a lot, I think you 20 20 Energy Plan website, which is could have done, frankly, a lot more. 21 21 energyplan.ny.gov. Particularly of concern, for instance, 22 22 So, for today's hearing we will begin the Electrical Generation Cessation Plan 23 23 by calling the names or name of those that you have there, frankly it addresses a 24 24 25 individuals who have indicated they want to 25 third-level problem. And there are much Page 6 Page 8 **PROCEEDINGS** PROCEEDINGS 1 1 speak when signing in. larger problems we have in this State. 2 2 So, when your name is called, please I think NYSERDA and others have made 3 3 4 come to the microphone in the center to 4 it very clear to us that now that, for instance, the coal plants have been shut provide your statement on the record. 5 5 A court reporter is here today to down, electrical generation contributes on 6 6 7 provide a transcript of everything that is 7 the order of 15 percent or less of our said and it's important that the speaker greenhouse gas emissions in the State these 8 8 speak clearly so that the reporter can hear 9 9 clearly. Transportation and heating alone, each 10 10 of them produce at least twice as much So, with that, I am going to open it 11 11 to comments. And thus far we only have one greenhouse gas emissions as electricity. 12 12 13 individual who has requested to speak, so 13 So, the question I would have is, why I'll call that individual up. in these updates, which are themselves good, 14 14 15 Bob Wyman, please provide your why has so much priority been give to, 15 comments. essentially, a third-level problem? 16 16 The key problems we have in this State 17 MR. WYMAN: Hello. My name is 17 Bob Wyman, I'm a resident here in New York are figuring out detailed plans for how we 18 18 will address the impacts of significant City in the Upper West Side. I'm an 19 19 20 advocate for beneficial electrification and reductions of fossil fuel usage in 20 also am now a candidate for Congress in the transportation sectors and in our housing 21 21 10th Congressional District. sectors. 22 22 23 I'd like to start off by saying thank 23 We know particularly -- for instance, you to NYSERDA and to the Public Service in the heating sector, we know that there 24 24

25

Commission for the great work you guys do

25

will be tremendous impacts on the industry

Page 9 Page 11 **PROCEEDINGS** 1 1 **PROCEEDINGS** going forward. 2 addresses issues like that, issues that are 2 If you just look here in New York dramatically greater, both in terms of 3 3 4 City, if we assume that New York City is 4 emissions and also in terms of financial going to be -- it hits -- recently hit its impact, than whatever issues that we have in 5 5 goal of an 80 percent reduction from 2005 Electrical Generation. 6 6 7 emissions levels by 2050. 7 Similar discussions can be held And then we look at the New York City 8 concerning transportation. 8 greenhouse gas inventory. We discover that I'd also like to point out that I 9 9 the natural gas being burned just in think one of the things that's very 10 10 buildings, not for electrical production but important for us, in our plan, to do is to 11 11 just in buildings, today produces about begin addressing conflicts which are in our 12 12 150 percent of the total budget for all law now which prevent us from moving 13 13 emissions from all sectors in New York City forward. 14 14 in 2050. We have a plan that says we want to 15 15 So, we know that we're going to have increase energy efficiency, another plan to 16 16 to reduce, by some significance, the amount say we want to reduce carbon emissions. 17 17 18 of natural gas consumption, even just in 18 But, are you aware that under state this one city. law today, in a law that was first written 19 19 in 1859 but is still valid today, gas 20 We also know that there are going to 20 be tremendous impacts from doing that, utilities are required to provide free 21 21 particularly in the realm of (inaudible). hookups and required to provide service to 22 22 Right now ConEd, who has a plan to be anybody who wants it for the purpose of 23 23 installing about a billion dollars of lighting their buildings? 24 24 25 capital, new capital equipment for their gas 25 Not for heating or cooking or doing Page 10 Page 12 **PROCEEDINGS** PROCEEDINGS 1 1 sector every year for the next three years, something else, but if they want pretty 2 2 with no indication that that will be reduced ornamental gas lights outside their house, 3 3 4 in the future. 4 Transportation Corporations Law, Section 12, requires the utilities to provide them Plans to depreciate those assets are 5 5 at a recovered cost for rate payers for the service and to provide the first 6 6 7 next 85 years for gas maintenance and the 7 100 foot of that service for free. next 65 years for gas services. 8 8 We have another -- and this, of 9 But, the CLCPA says that essentially 9 course, makes it very difficult for us, when we are going to be dramatically reducing our we try and work with gas utilities, to 10 10 consumption of natural gas between now and reduce the amount of gas they sell, because 11 11 2050, which is only 30 years from now. they come back and say, "We're required by 12 12 13 We need a plan to address the question 13 law to provide this service." of who is going to be paying for today's We have a similar problem even in 14 14 15 assets, which will become not used and heating. 15 useful, so much of them after 2050, who will We have, in Public Service Law 16 16 be paying for those assets through the year Section 30, we have a statement that it is 17 17 2110 or so on some of them, long after our the policy of New York State that it's in 18 18 accomplishment of the goals of the CLCPA, the public interest to provide gas service 19 19 20 the State Energy Plan, et cetera, have been to everyone in the City, every residential 20 achieved. customer in the State. That's in the law. 21 21 We don't currently have a plan for So, when you go and you try to argue 22 22 doing that and we desperately need one. for, let's reduce the amount of gas that's 23 23 If we're to have a cessation plan, it being used in order so that we can meet the 24 24

25

really should be a cessation plan that

25

requirements of the CLCPA, the response is,

	Page 13		Page 15
1	PROCEEDINGS	1	PROCEEDINGS
2	"The law said it is in the public interest	2	But, I think we do need to get our
3	and requires us to do so."	3	priorities straight here. Electricity is
4	Section 31 of the Public Service Law	4	not the number one problem in this State.
5	says that for non-lighting purposes a	5	If anything, our goal should be to
6	little bit less controversial heating and	6	dramatically increase our consumption of
7	cooking and such, once again, there is an	7	electricity to beneficial electrification
8	obligation to serve. The utilities must	8	programs, electric vehicles, heat pumps,
9	provide service as long as the PSC hasn't	9	induction cooking, et cetera.
10	declared that it would be (inaudible).	10	And while we're in the process of
11	And they must provide the first	11	figuring out how to go through a managed
12	100 feet of that service for free for anyone	12	process of decapitalization of gas assets
13	who wants it.	13	and how we figure out how to rationally
14	The Public Service Commission, in its	14	convert our existing internal combustion
15	regulations, Section 203, went beyond the	15	engine and diesel transportation to
16	law and said that, for residential customers	16	electricity, that will probably mean we have
17	who want heating service, that they can have	17	to double the amount of the capacity that we
18	200 feet of free pipe; 100 feet of main plus	18	need to deliver by 2050 and certainly
19	100 feet of service line.	19	increase the amount of electrical
20	I can go on for a long time, but I	20	production.
21	only have a few minutes here.	21	But, as it stands today, you know, we
22	So, I can go on for a long time	22	could even get dramatic reductions in
23	pointing out the various things in our law	23	emissions if we if we were able to adopt
24	today that essentially conflict with the	24	beneficial electrification in transportation
25	goals of the CLCPA and with the goals of the	25	(inaudible), even while leaving our electric
