upport NYS Energy Plan to invest in energy efficiency and  
e energy, to stabilize energy costs, grow new jobs, and increase  
y independence. Long Island needs offshore wind as part of our  
ix, not more will promises to "look into it". LI also needs  
al, large scale solar projects which will help us meet summer  
and. Please respond in writing, informing me of your position  
atter.

Thank you,

Doreen Marturano
