

## SECTION 4.0

### COMPLIANCE WITH THE STATE ENVIRONMENTAL QUALITY REVIEW ACT

---

This section is intended to correlate applicable sections of the State Energy Plan with the components of a Final Environmental Impact Statement, pursuant to the State Environmental Quality Review Act (SEQRA) and its implementing regulations 6NYCRR Part 617. Notice of a Positive Declaration under SEQRA, indicating that implementation of the State Energy Plan may have a significant effect on the environment, was published in the Environmental Notice Bulletin on April 4, 2001. The integrated Draft State Energy Plan and Draft Environmental Impact Statement was issued for public comment on December 26, 2001. In total, 171 sets of oral comment were presented to the Energy Planning Board at its nine public hearings and 747 sets of written comments were received by the close of the public comment period on March 15, 2002. The Energy Planning Board has thoroughly reviewed the comments and has accordingly revised the State Energy Plan and the Final Environmental Impact Statement, as deemed appropriate.

The Energy Law generally requires that energy-related actions or decisions of state agencies, boards, commissions, and authorities be reasonably consistent with the forecasts and long-range energy planning objectives and strategies contained in the State Energy Plan. However, the State Energy Plan does not commit any agency, board, commission, or authority to a definite course of specific future decisions. Accordingly, each specific energy-related action of an agency, board, commission, or authority is independently subject to applicable environmental review requirements, such as SEQRA, or Articles VII and X of the Public Service Law.

Overall, the policy objectives and strategies set forth in the State Energy Plan are intended to maintain and improve environmental quality. For example, greenhouse gas and acid rain precursor emission reductions, as well as aquatic ecology enhancement, will directly result from the Plan's objectives and recommendations to continue to develop and implement strategies such as the Governor's Acid Deposition Reduction Program, Clean Air for Schools Program, Clean-fueled Bus and Diesel Vehicles Programs, Clean Fueled Vehicles Program, enhanced vehicle inspection programs, etc. Further, implementation of the Plan's objectives and recommendations to enhance energy efficiency and renewable energy sources will reduce air and water emissions and discharges resulting from fossil fuel combustion and other processes. Examples are the **New York Energy \$mart** program, Governor Pataki's Executive Order 111 to increase

the energy efficiency of State buildings and vehicles, the State Green Building Tax Credit. Similarly, implementation of the Plan's objectives and recommendations to improve transportation mobility will enhance air quality by reducing traffic congestion. The Plan addresses these and many other environmentally enhancing objectives and recommendations.

The State Energy Plan addresses the environmental impacts of its energy policy objectives and strategies. Although specific activities will need to be addressed individually (see above) these broad objectives and policies do not appear to have significant adverse environmental impacts. The integrated State Energy Plan and the Response to Comments complies with the specific requirements for a Final Environmental Impact Statement as specified in §8-0109 of SEQRA (ECL, §8-0109) and 6NYCRR 617.9(b), as follows:

<b><u>Plan Section Number</u></b>	<b><u>Plan's Section/Subsection Heading</u></b>	<b><u>Plan Page</u></b>
<b>I. Description of Proposed Action and Environmental Setting</b>		
1.1	Preface .....	1-1
1.2	Draft Energy Plan Findings and Conclusions .....	1-19
1.3	Energy Policy Objectives and Recommendations .....	1-33
2.1	Promoting Energy Industry Competition Introduction .....	2-1
2.2	Energy and Economic Development .....	2-15
2.3	Energy and the Environment Trends in NYS Air Quality .....	2-39
2.4	Energy and Transportation Transportation Patterns and Trends .....	2-61
2.5	Preserving Energy-Related Public Benefits Programs The Role of Government .....	2-98
3.2	Energy Efficiency Energy Efficiency in NYS .....	3-10

<b><u>Plan Section Number</u></b>	<b><u>Plan's Section/Subsection Heading</u></b>	<b><u>Plan Page</u></b>
3.3	Renewable Energy Technology Characterizations .....	3-58
3.4	Electricity Status of Competitive Electric Markets .....	3-80
	Status of Utility Structures/Mergers .....	3-98
	Status of Electricity Infrastructures .....	3-100
3.5	Natural Gas Introduction .....	3-153
	Natural Gas Competition .....	3-154
	Natural Gas Market Developments .....	3-158
	Infrastructure Issues .....	3-166
3.6	Petroleum Introduction .....	3-182
	Petroleum Supply Overview .....	3-182
	New York State Overview .....	3-189
3.6	Coal United States Coal Overview .....	3-208
	New York State Overview .....	3-213
 <b>II. Environmental Impact, including Short-term and Long-term Effects</b>		
1.3	Energy Policy Objectives & Recommendations Promoting and Achieving a Cleaner and Healthier Environment .....	1-41
2.1	Promoting Energy Industry Competition Environmental Impacts .....	2-4
	Competitive Issues for the Future .....	2-5
	Power Plant Siting .....	2-7
2.3	Energy and the Environment Recent Air Quality Improvement Programs .....	2-41
	Status of Acid Deposition Initiative .....	2-43
	Green Building Tax Credit Program .....	2-47
	MTBE .....	2-48
	Environmental Justice Issues .....	2-50

<b><u>Plan Section Number</u></b>	<b><u>Plan's Section/Subsection Heading</u></b>	<b><u>Plan Page</u></b>
	Clean Water/Clean Air Bond Act Update .....	2-51
	Clean Air for Schools Program .....	2-52
	Clean-Fueled Bus Program .....	2-52
	State Clean-Fueled Vehicles Program .....	2-53
	Other Air Projects .....	2-54
	Mitigating Aquatic Impacts of Electric Generation ...	2-56
2.4	Energy and Transportation	
	Enhancing/Encouraging Energy-Efficient Transportation .....	2-67
	Encouraging Energy-Efficient Actions .....	2-71
	Innovation and New Transportation Technologies ....	2-81
	Transportation/Air Quality/Energy Connection .....	2-89
	Energy Issues - Federal Level .....	2-90
	Corporate Average Fuel Economy Standards .....	2-95
3.1	Forecast Summary .....	3-1
3.2	Energy Efficiency	
	In New York State .....	3-10
	Benefits and Barriers .....	3-30
	Statewide Achievements and Energy Efficiency Potential .....	3-34
3.3	Renewable Energy	
	Benefits .....	3-40
	Barriers to Development .....	3-42
	U.S. DOE Forecasts .....	3-44
	Programs .....	3-46
	Technology Characterizations and Estimates of Technical Potential .....	3-58
3.4	Electricity	
	Improvement Opportunities .....	3-82
	State Policies/Programs to Enhance Retail Electricity Competition .....	3-83
	Expected Resources .....	3-94
3.5	Natural Gas	
	Market Developments .....	3-158
	Future Demand, Supply, Price .....	3-172

<b><u>Plan Section Number</u></b>	<b><u>Plan's Section/Subsection Heading</u></b>	<b><u>Plan Page</u></b>
3.6	Petroleum	
	U.S Supply and Demand .....	3-186
	Article X Focus .....	3-202
	Forecast Summary .....	3-205
3.7	Coal	
	Developments & Trends .....	3-216
 <b>III. Alternatives to the Proposed Action</b>		
2.1	Promoting Energy Industry Competition	
	Competitive Issues for the Future .....	2-5
2.5	Preserving Energy-Related Public Benefits Programs	
	Continuing Energy Public Benefit Programs .....	2-114
 <b>IV. Irreversible and Irretrievable Commitments of Resources</b>		
3.1	Forecast Summary .....	3-1
3.2	Energy Efficiency	
	Benefits and Barriers .....	3-30
3.5	Natural Gas	
	Supplies .....	3-160
3.6	Petroleum	
	Supply Overview .....	3-182
3.7	Coal	
	U.S. Coal Reserves .....	3-211
 <b>V. Mitigation Measures Proposed to Minimize Environmental Impacts</b>		
2.1	Promoting Energy Industry Competition .....	2-1
2.3	Energy and the Environment	
	Recent Air Quality Improvement Programs .....	2-41
	Status of Acid Deposition Initiative .....	2-43
	Green Building Tax Credit Program .....	2-47

	MTBE .....	2-48
	Environmental Justice Issues .....	2-50
	Clean Water/Clean Air Bond Act Update .....	2-51
	Clean Air for Schools Program .....	2-52
	Clean-Fueled Bus Program .....	2-52
	State Clean-Fueled Vehicles Program .....	2-53
	Other Air Projects .....	2-54
	Mitigating Aquatic Impacts of Electric Generation ...	2-56
2.4	Energy and Transportation	
	Enhancing and Encouraging Energy Efficient Transportation .....	2-67
	Reducing Person Hours of Delay and Vehicle Miles Traveled .....	2-68
	Encouraging Energy Efficient Action by Transportation Providers .....	2-71
	Alternative Fuels and Alternative Fuel Technologies .	2-84
	Transportation/Air Quality/Energy Connection .....	2-89
3.2	Energy Efficiency	
	Statewide Achievements and Energy Efficiency Potential .....	3-34
3.3	Renewable Energy	
	Technology Characterizations and Estimates of Technical Potential .....	3-58
3.7	Coal	
	Developments & Trends .....	3-216
<b>VI.</b>	<b>Growth Inducing Aspects</b>	
1.3	Energy Policy Objectives and Recommendations .....	1-33
2.2	Energy and Economic Development	
	Introduction .....	2-15
	Energy Supply .....	2-15
	Role of Energy Prices .....	2-16
	Economic Development Programs .....	2-16

<b><u>Plan Section Number</u></b>	<b><u>Plan's Section/Subsection Heading</u></b>	<b><u>Plan Page</u></b>
	Economic Development Potential of Reducing Energy Costs .....	2-24
	Employment Impacts of Energy Efficiency .....	2-25
 <b>VII. Effects on Use and Conservation of Resources</b>		
1.3	Energy Policy Objectives & Recommendations .....	1-33
2.3	Energy and the Environment	
	Energy Efficiency & Renewable NO <sub>x</sub> Budget Trading .	2-45
	Green Building Tax Credit Program .....	2-47
2.4	Energy and Transportation	
	Introduction .....	2-60
	Enhancing & Encouraging Energy Efficient Transportation .....	2-67
	Energy Research Program .....	2-88
	The Transportation/Air Quality/Energy Connection ..	2-89
