Organization: Bushwick Food Coop

County: Kings

Comment: I am writing to request a moratorium on all natural gas drilling. It is NOT a renewable energy source, will NOT help us reach our goal to reduce CO2 emissions 80% by 2050, and may irreversibly RUIN New York State's water supplies. Clean water is a human right that belongs not just to us but to future generations. Please act now to protect New York's clean water! Sincerely, Rachel Devlin
