

Name: Derrick Gibson

Title: Chief Evangelist

Organization: EMPOWERITY!

County: Monroe

Comment: To what degree does this plan consider the potential of wind energy generated by turbines placed in off the shoreline of Buffalo, Rochester and Syracuse?
<http://www.guardian.co.uk/environment/2009/sep/17/worlds-largest-offshore-wind-farm-dong> With this being the week that the world's largest offshore wind farm went live over in Europe - in a space of less than 31 square km - it seems like perhaps as many as 1000 turbines could be situated in Lake Ontario and used to power millions of homes across the Northern Tier of New York State. Thanks and Regards, Derrick Gibson
