Comment: EnerNOC supports the comments of ACE-NY of which it is a member. In addition, EnerNOC supports the following SEP recommendations, with comments noted in ALL CAPS: · The State should aggressively pursue cost-effective approaches and technologies demand response to achieve reliability and other public policy objectives. · The State should broaden the installation of advanced meters and implementation of mandatory hourly pricing for industrial and commercial customers by continuing to reduce the demand thresholds. PSC and State energy authorities should evaluate and aggressively support implementation of demand response measures where cost-effective and environmentally beneficial. · State and other publicly-owned buildings should take advantage of all cost-effective energy efficiency opportunities, including the use of NYPA's recently-granted authority to finance energy efficiency projects in public buildings. **THIS RECOMMENDATION SHOULD BE CLARIFIED TO INCLUDE DEMAND RESPONSE ALONGSIDE "ENERGY EFFICIENCY"**
