

Name: kathleen harrington

Title: Ms

Organization: US Citizen

County: Nassau

Comment: I am against the New York State Energy Plan because I cannot afford one more dime to be paid by me for energy. There will be noone left in Nassau Cty within the next few years if the politicians continue to make deals to stay in office at the expense of residents of NY State. Even though you are not saying it, there will be an additional cost to me for this Energy Plan whether it be in taxes or hidden. I vote NO TO THE ENERGY PLAN. This state is just about broke. Forget energy plans that will cost additional money and concentrate on reducing taxes so that consumers will start to spend and small businesses will be able to make money and therefore pay more taxes to the state.
