

Name: Marty Hiller

Title: Dr.

Organization: none

County: Tompkins

Comment: To The State Energy Board, I am writing to let you know that, as a New York State resident, I strongly support all forms of renewable energy and I want an energy plan that moves us swiftly in that direction. New York can no longer afford to implement renewable energy in baby steps. We need to take mature leaps to fix our economy and environment and to change the focus of our power production to renewable energy sources. Many advocates are calling for 2,000 MW of solar by 2020. As a New Yorker I strongly support this investment and urge you to incorporate a comprehensive solar program, of at least 2,000 MW by 2020, as part of your State Energy Plan. I would also like to see a similar increase in support for wind power. The cost of implementing these changes is tiny compared to the potential benefit. Thank you, Marty Hiller
