Comment: Greetings, I do not support NY State using LNG as apart of its energy plans. LNG emits green house gases, and has a higher CO2 emission rate than natural (North American Domestic) gas. Please do not include LNG. Please do not allow LNG Island's in or around our great state. Please do not accept Atlantic Island Sea Group's proposal to build a 60 acre island less than 14 miles off the south shore of Long Island. Thank you, Matt Hynes
