

Name: Susan Lynne

Title: NYS citizen

Organization: none

County: Rockland

Comment: We need to protect the future health of the beautiful state! I would urge that the state's Energy Plan have a clearly defined plan and implementation schedule to meet increased energy efficiency, renewable energy development, and greenhouse gas emission reduction goals. The plan MUST NOT support new dirty coal plants or expensive nuclear power. Drilling in Marcellus Shale for natural gas, or any other location for that matter must require more rigorous environmental review, public involvement, and full disclosure of the risk to our environment and public health. Thank you for your consideration.
