

Name: John Allen

Title: Member, Board of Directors

Organization: New York Interfaith Power & Light

County: Onondaga

Comment: The Energy Plan must have a clearly defined plan and implementation schedule to meet increased energy efficiency, renewable energy development, and greenhouse gas emission reduction goals. The plan must not support new coal plants or nuclear power. It needs to support renewal energy - wind and solar - with appropriate incentives. Drilling in Marcellus Shale for natural gas must require more rigorous environmental review, public involvement, and full disclosure of the risk to our environment and public health.
