Comment: Dear New York State Planning Board, Please make sure the Energy Plan has a clearly defined plan and implementation schedule to meet increased energy efficiency, renewable energy development, and greenhouse gas emission reduction goals. The plan must not support new dirty coal plants or expensive nuclear power. Drilling in Marcellus Shale for natural gas must require more rigorous environmental review, public involvement, and full disclosure of the risk to our environment and public health. Thank you for listening to my comments.  
Sincerely, Melinda Novak
