

Name: Don Rhodes

Title: Homeowner

Organization: Rhodes House hold

County: Chenango

Comment: To The State Energy Board, Thank you for taking the time to convene and discuss solar technology and NYS's role in its' use. This is going to be just one of the ways that we NYSer and human in general will have to adopt in order to maintain our life styles. I urge you to not adopt a meek goal/schedule/policy, but to follow, if not improve upon, the German policy on solar technology deployment. Make it advantageous to citizens and businesses to put up their own solar equipment. If you take a look at this:  
<http://cache.gawker.com/assets/images/gizmodo/2009/09/solar-panels.jpg> you will see that there is not a lot of overall space needed in order to really make a difference for our planet. Help push NYS to the forefront and be a leader for all states and countries on this planet.
