

Name: Mary Rice

Title: NYS Resident

Organization: none

County: Putnam

Comment: New York State must invest in energy efficiency, energy conservation, and clean, non-polluting renewable energy. I believe that NYS must develop a plan that incorporates the following: The Energy Plan must have a clearly defined plan and implementation schedule to meet increased energy efficiency, renewable energy development, and greenhouse gas emission reduction goals. The plan must not support new dirty coal plants or expensive nuclear power. Drilling in Marcellus Shale for natural gas must require more rigorous environmental review, public involvement, and full disclosure of the risk to our environment and public health. I very much appreciate the Planning Board's consideration of my outlined issues. Thank you, Mary Rice
