Comment: To The State Energy Board, Thank you getting to work on this!. I am writing to let you know that, as a New York State resident, I want an energy plan that incorporates the use of solar photovoltaics and solar thermal equipment. I think we need to look at options that will fix our economy, environment and broken power production system as opposed to looking for "band-aid" solutions. A well-designed 2,000 MW solar program could be implemented for as little as \$0.82 in residential rate payer impacts a month and deliver more than \$10 billion dollars in economic output. As a New Yorker I strongly support this investment and urge you to incorporate a comprehensive solar program, of at least 2,000 MW by 2020, as part of your State Energy Plan. Thank you.
