When searching for the NYS Energy Plan, the old 2005 plan is found not the "New Site." [http://www.nyserda.org/new\\_site/events.html](http://www.nyserda.org/new_site/events.html). Key words- "NYS Energy Plan" should simply solicit the correct website.

I would like to see the initial time frame extended to reflect the open public input.

I would also request that all members have a link at their respective agencies' websites.

Thank you.
