I wish to send my objections concerning NYSERDA industrial wind tax breaks. This is yet another blatant waste of our tax dollars and another peg in the coffin of NYS. Why are you handing over millions to already wealthy corporation? why are they tax exempt say for a few beans in a PILOT ? this is THE insanity as usual in NY. I mean, come on, this state is always broke, get rid of the political GLUT not our beautiful natural resources for wind farms that produce minimal benefits. Hello - WE HAVE NIAGARA FALLS, we have NATURAL GAS in the LAKES - oh yes, and while your at it, kiss Iberdrola on the forehead with a sweet little pat and hand over the rest. shame !
