

PHIL BARITEAU, NAPLES VALLEY BRISTOL HILLS ASSOCIATION

Please do not let more wind turbines or power lines be allowed to ruin our pristine area of New York State. Please follow through with not tolerating corruption in government such as the Prattsburgh Town Supervisor who lends himself to lining his financial pockets while ignoring his elected duty. Wind Turbine Companies should NOT be allowed to buy off our school districts with upfront money...benefiting the districts in the short run and cheating the districts out of a large amount of tax dollars...let's think of our future and not allow these companies to STEAL money from our KIDS and FUTURE. Now is the time for our politicians to stand up for the voters who placed them in their jobs! Lawmakers-be men not mice! Stick up for our environment and our kids!!!!
