

Name: Christina Durgin

Title: Mrs.

Organization: NYS consumer

County: Broome

Comment: Dear Elected Officials, I am deeply concerned about the future of NYS. If we allow drilling for gas, not only will we jeopardize our clean environment, but we will only temporarily address the need for energy. In Sweden, for example, their legal limit of idling your car in a city is 1 minute. How about enforcing some environmentally friendly and energy savings policies that do not cost much to start up? I know consumers will balk at that particular suggestion, but how about helping NYS citizens come up with sustainably and viable solutions to the foreseeable crisis? Thank you! Christina Durgin Binghamton
