

Name: Patricia Hornbeck

Title: Energy Auditor

Organization: EcoEnergy Solutions, LLC

County: Ulster

Comment: We are behind the time to delay action. Swift and diverse actions are now required. From reducing load to increasing efficiency, across the board in all areas. Decrease reliance on fossil fuel and increase use of a "free" existing solar energy. Give some assistance to the large scale users, like hospitals, schools, nursing homes. Every day action is delayed is another day adding to the problem.
