I concur with the "Draft 2009  
State Energy Plan". I urge our  
representatives to support it.

The draft failed to mention the  
millions of dollars, that would  
be saved, in medical bills. Yearly  
people who suffer from asthma and  
other allergies due to smog.

We must be forever vigilant  
re' these oil companies, to  
be sure, they respect our environment,  
re. water ~~air~~ and disposal of toxic  
waste.
