

Name: dorothy wechter

Title: citizen

Organization: none

County: NewYork

Comment: the reliance on gas from the Marcellus Gas formation in the southern tier is not worth the environmental and human health risks period. The revenues are tempting but it is a pact with the devil - outmoded fuel, promoted by a corrupt and way too powerful industry. Stop taking their contributions and maybe the issue can be looked at in a serious unbiased way. Please don't count on the gas from the Marcellus. Continue with developing wind and other energies. The inevitable accidents that will happen with natural gas drilling will be more costly in the long run and as a tax payer, I'm tired of footing the bill in all ways. NO NO NO to large scale drilling in the Marcellus Shale formation.
